

BASC-4 Standardization Pay Rate Tables

Because of the large scope of the BASC-4 standardization, candidate and assignment selection will be staggered and pay rates for new studies will be added throughout the project. Please refer to these tables frequently.

All examinee payments will be digital. Examinee payment is now selected on the Candidate Demographic Form; payment will be withheld if the Candidate Demographic Form is not completed before testing. Parents and teachers will enter their email addresses directly on the rating form they complete, and payments will be issued digitally. Please revisit the Examiner Hub for additional project information, including candidate criteria for the clinical and validity studies that will be added later.
