

Hello:

We are excited to inform you that one or more of your students has been selected to participate in a research opportunity with Pearson. Pearson Clinical Assessment is currently working to update the **Behavior Assessment System for Children (BASC)** rating forms. This measure enables professionals to incorporate a student's behavioral/emotional strengths and deficits into an overall evaluation and treatment plan.

Part of the BASC update involves establishing new norms, which requires students, parents, and teachers from across the United States to participate in the research data collection. This is where you and your students can make an impact.

Research Overview

Your student's family has signed a consent form allowing you to complete a rating form about the student. The student will complete a self-rating form (ages 8 and older), and their parent will complete a parent rating form. As their teacher, we need you to complete the teacher rating form about the student's behavior in the school setting. *To ensure the quality of the research, you should only agree to participate if you have been in contact with the student daily or at least several times a week.*

Participation Details

- You will receive an email with a link to the teacher rating form.
- This form should take 30–45 minutes to complete.
- You will receive a **\$50 digital gift card** 1–2 weeks after completing the rating form.
- You can complete forms for up to 10 participating students.

Participating in this opportunity alongside your students is a powerful way for you to make a significant impact on an assessment that will benefit countless students for years to come.

If you have any questions on how to participate, please contact _____ at _____.

Thank you for your help!
