

# By the numbers: The voice of our Q-interactive users

Professionals in every industry are facing new challenges at every turn, and with burnout at an all-time high, we wanted to engage our Q-interactive® users to see how we can best support them. We received 1633 responses from our March 2023 survey across the education and healthcare fields we serve and gained some valuable insights into how Q-interactive is helping make their jobs easier and more fulfilling.

## We heard back from Q-interactive users in the following positions:

K-12 School Psychologist

Speech Language Pathologist

Special Education Teacher

Education Diagnostician

Clinical Psychologist

*"Q-interactive has helped ease the processes of administration and scoring of assessments making my job more enjoyable."*

—Q-interactive user

## Speaking from a wealth of experience

Over **50%** of our respondents have spent **15+ years in their profession.**

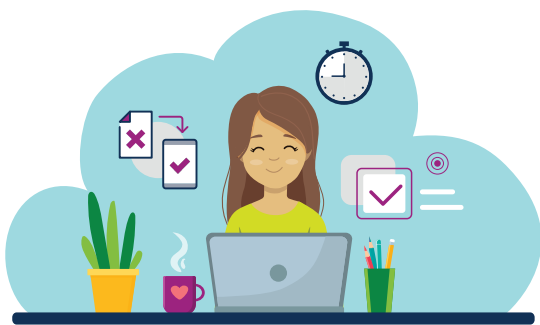

## Familiar technology keeps kids engaged

**95%** of respondents reported using Q-interactive to evaluate **young children/teens aged 5-16**.

## The top 3 reported benefits of Q-interactive:

1. **No test kits/less** material to manage
2. **Time savings/less time** to complete evaluations
3. The ability to make assessment adjustments with input from **real-time scoring**

*“Q-interactive revolutionized the process of testing—access to test materials and client engagement.”*

—Q-interactive user

## 55% of respondents said they would use an extra hour to:

1. Work on their **physical well-being**
2. Spend **more time with their students/clients**
3. Work on their **own mental health**

*“Q-interactive is totally worth it and has been a game-changer in my district. Everyone loves it!”*

—Q-interactive user

## What is the most common response parents have when their child is referred for an evaluation?

**Relief!** We are finally getting the help we need!
